Letter D: a looking game

The small numbers help the grown-up check answers. They are not the letters you are looking for.

Find every D and d. Point, circle or color your choices.

Keep the model nearby if helpful. Cover part of the grid to make a smaller hunt. A grown-up can check the numbered cells on page 3.

Letter D: grown-up guide and game

Choose a small shared activity. No perfect handwriting, completed worksheet or independent reading is expected.

Make and play

An adult draws a tall line and a large curve to make a D-shaped doorway on paper. Decorate around it, then add a lowercase d sign. Say which marks belong to the letter and which are decoration.

Notice a difference

Put b and d side by side. Ask where the tall stem sits in each printed model. Avoid treating a reversal as carelessness; return to a clear example and offer a smaller choice.

Example words

dog, door, duck. Find d at the beginning of these written words. These are letter examples; follow school guidance when teaching sounds.

Letter-hunt answers

3 (d), 4 (D), 8 (d), 13 (D), 17 (d), 22 (D). There are six matching cells: three capitals and three lowercase letters.

Let the child point, talk or direct your hand. Stop for a break whenever needed. An adult prepares paper pieces; keep scraps away from children who mouth objects.
