Letter H: a looking game

The small numbers help the grown-up check answers. They are not the letters you are looking for.

Find every H and h. Point, circle or color your choices.

Keep the model nearby if helpful. Cover part of the grid to make a smaller hunt. A grown-up can check the numbered cells on page 3.

Letter H: grown-up guide and game

Choose a small shared activity. No perfect handwriting, completed worksheet or independent reading is expected.

Make and play

Build H with two long paper strips and one short bridge between them. Draw h beside it, then make a little house picture around the letters without changing their outlines.

Notice a difference

Compare H and A: their joining bars are similar, but H has upright sides. Compare h with n by finding the tall stem. Keep both letters at the same baseline when you show the difference.

Example words

hat, hand, house. Find h at the beginning of these written words. These are letter examples; follow school guidance when teaching sounds.
