

Letter I: look, trace and try

Start with a finger, then a pencil if wanted. These models are for recognition and tracing; follow your school's formation guidance.

Look at both forms.

Letter I: a looking game

The small numbers help the grown-up check answers. They are not the letters you are looking for.

Find every I and i. Point, circle or color your choices.

1 Z	2 g	3 I	4 v	5 C	6 k
7 R	8 i	9 I	10 n	11 U	12 b
13 i	14 q	15 X	16 e	17 M	18 I
19 A	20 h	21 P	22 i	23 D	24 I

Keep the model nearby if helpful. Cover part of the grid to make a smaller hunt. A grown-up can check the numbered cells on page 3.

Letter I: grown-up guide and game

Choose a small shared activity. No perfect handwriting, completed worksheet or independent reading is expected.

Make and play

Draw several tall and short stems on spare paper. Add dots to the short stems to make i, then make a capital I with its top and bottom bars. Let an adult write the examples if preferred.

Notice a difference

Printed capital I, lowercase l and the numeral 1 can look similar. Compare the exact models on the page and name which kind of symbol each one is. Another typeface may make these differences more or less obvious.

Example words

insect, ink, igloo. Find i at the beginning of these written words. These are letter examples; follow school guidance when teaching sounds.

Letter-hunt answers

3 (I), 8 (i), 9 (I), 13 (i), 18 (I), 22 (i). There are six matching cells: three capitals and three lowercase letters.

Let the child point, talk or direct your hand. Stop for a break whenever needed. An adult prepares paper pieces; keep scraps away from children who mouth objects.
