Letter T: a looking game

The small numbers help the grown-up check answers. They are not the letters you are looking for.

Find every T and t. Point, circle or color your choices.

Keep the model nearby if helpful. Cover part of the grid to make a smaller hunt. A grown-up can check the numbered cells on page 3.

Letter T: grown-up guide and game

Choose a small shared activity. No perfect handwriting, completed worksheet or independent reading is expected.

Make and play

Arrange two paper strips into a T signpost. Move the horizontal strip lower to discuss what changes, then return to the model. Draw t beside a picture of a tent or tiger and point to its crossing stroke.

Notice a difference

Compare T with I using the presence of a lower bar, and compare lowercase t with f by looking at the top curve in f. Typefaces vary, so make comparisons using the actual models on this sheet.

Example words

tap, tent, tiger. Find t at the beginning of these written words. These are letter examples; follow school guidance when teaching sounds.

Letter-hunt answers

Let the child point, talk or direct your hand. Stop for a break whenever needed. An adult prepares paper pieces; keep scraps away from children who mouth objects.
