Letter W: a looking game

The small numbers help the grown-up check answers. They are not the letters you are looking for.

Find every W and w. Point, circle or color your choices.

Keep the model nearby if helpful. Cover part of the grid to make a smaller hunt. A grown-up can check the numbered cells on page 3.

Letter W: grown-up guide and game

Choose a small shared activity. No perfect handwriting, completed worksheet or independent reading is expected.

Make and play

Build W from four paper strips, checking that the middle meeting point is raised. Draw a little web beside it, then add a lowercase w. The decoration should leave the printed model easy to see.

Notice a difference

Compare W and V by counting their low points. Compare W and M with the models kept upright; the shapes can look related when turned. Always return the paper to the reading position before asking for a name.

Example words

web, window, watch. Find w at the beginning of these written words. These are letter examples; follow school guidance when teaching sounds.

Let the child point, talk or direct your hand. Stop for a break whenever needed. An adult prepares paper pieces; keep scraps away from children who mouth objects.
